

METHODS FOR TREATING DISEASES CAUSED BY DEFICIENCIES OF  
RECOMBINANT  $\alpha$ -L-IDURONIDASE

ABSTRACT

5       The present invention provides a formulation comprising a pharmaceutical  
composition comprising a human recombinant  $\alpha$ -L-iduronidase or biologically active or  
muteins thereof with a purity of greater than 99%, or in combination with a  
pharmaceutically acceptable carrier. The present invention further provides methods to  
10       treat certain genetic disorders including  $\alpha$ -L-iduronidase deficiency and  
mucopolysaccharidosis I (MPS 1) by administering said formulation.
